

CRAVE

Digital Water Heater

“SIMPLY SMART”

CRAVE

Digital Water Heater

"SIMPLY SMART"

MEX

Truly Digital
Water Heater
Digital Shower Control

To create the latest model of the Water Heater '**CRAVE SERIES**', redefined as a new bathroom gadget. The design concept has evolved from the distinctive reflection of tiles that tile to tell a story and invent a unique dimension striking to the eyes, fascinating and enchanting the bathroom from any angle.

CRAVE is equipped with the innovation of Electronic Water Heater Technology and a specially designed LED Display.

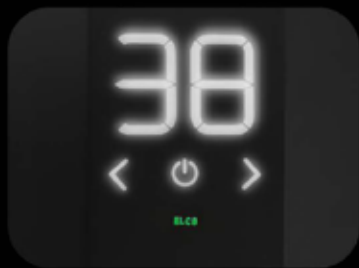

Make your life ultimately smart and simple

THE MOST ADVANCED TECHNOLOGY "CRAVE SERIES"

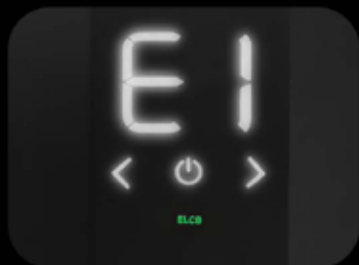

WHT TECHNOLOGY (WATER HEATER TECHNOLOGY)

The electronic water heater control system, developed by MEX, can rapidly and stably adjust the desired temperature. It is based on the concept of User-Oriented Design.

SMART ELECTRONIC CONTROL

Easily operated with a single touch. The water heater temperature can be set between 32-45 degrees Celsius. Turn it on or off with just one touch, thanks to the specially designed LED display.

E1 - E6

ERROR CODE NOTIFICATION

Enhance the safety system with error code notifications. If the water heater is incorrectly installed, such as lacking ground connection or incorrect wiring, the display will show error codes E1-E6.

AMBIENT LIGHT DESIGN

The ambient light system illuminates the side of the water heater to indicate its operational status.

INNOVATION & SAFETY

“CRAVE SERIES”

ADVANCE ENGINEERING DESIGN

The internal control is intelligently designed to accommodate separate electronic modules for water and electricity for ultimate safety.

HIGH QUALITY COPPER TANK

The premium Copper Tank with thickness 1.0 mm. which maintains stable temperature.

SPIRAL FLOW HEATING SYSTEM*

*MEX Original Patent Registered
Lastest Innovation of the flow heating system which enhances heating performance in a copper tank thoroughly.

HALL EFFECT SENSOR*

*Innovation by MEX which provided the sensor to detect inlet water system to keep maintaining temperature even in the low water pressure condition.

SAFETY THERMOSTAT

Auto shut off operating system immediately when water temperature is detected unusually high

CRAVE 45E
4500W
Normal Price 8,400.-

CRAVE 35E
3500W
Normal Price 7,800.-

ELCB

ELCB TEST BAR*

Premium quality circuit breaker would detect electric leakage just 15 milliamps and shut off the operation within 0.1 second.

IP25

Body material of MEX water heater from high quality ABS which obtained safety standard IP25 to prevent water leakage into the body.

STANDARD CERTIFY

Mex Water Heater have been certified by IEC STANDARD by TÜV SÜD
